## EXPERIENCE

### Video Editor - OCPNews

Out 2020 - Out 2021

I interned at OCPNews, a local newspaper, and later worked as a live broadcast operator, where I edited reports, managed social media post cuts, handled design, audio, interviews, and camera work.

### Laravel e React Native - Be Mobile

May 2022 - August 2023

I worked remotely for a company based in Pelotas, RS, initially as a backend developer and later transitioning to mobile development (React Native), as well as working on a few front-end applications. In backend development, I primarily used Laravel as the main stack.

## EDUCATION

### Technical integrated high school in development

Senai 2020 - 2022

I completed a 3-year integrated technical course in Systems Development at Sesi Senai Jaraguá do Sul.

I reinforced my knowledge in SQL, Java, Arduino, Design, Node.js, Networking, and even (personally) hacking.

### Software Engineering degree

Anhangüera 2023 - Now

I am currently pursuing a Software Engineering degree remotely from Anhangüera University.

My main goal is to become a better professional through this new challenge.
